Vineyard

90-98 degree temperatures insure great bloom and pollination. The weeds are a constant fight and you never know if you are winning but you definitely know you when you are losing. So far so good. Cabernet young plants on the new farm will get the trellis next year and 2010 we expect first small harvest.

Spice on Ice

This summer at the area bars and restaurants we are doing "Spice on Ice" promotions featuring our Alpine Spice. The hot season's most popular drink! If your local watering hole does not have "Spice on Ice" please request it or demand it; your local bar can call us or pick up Alpine Spice at the local state wine and spirit

Good News

Sand Castle Winery earned First Place in 2008 Reader's Choice Award. It is nice to be appreciated. All of us need a little boost of energy especially in the 90 + degree heat in the always sunny vineyards.

Winery

Young wines of 007 are already placed in storage vats and barrels for the years of aging.

Coming up as a new release will be Chardonnay Classic, 2002 Millennium Series and a brand new blend; very popular in southern Europe, **Dry Rose**.
